

# CHERUB SYSTEM

DESIGNED FOR STRYKER POWER-PRO XT STRETCHER

## CHERUB FEATURES

### CERTIFIED

Designed for maximum usability, the Cherub has been designed and tested to meet and exceed both road ambulance and aircraft certification standards including AS/NZS 4535 and FAR/JAR Part 25 and Part 29.

### OPTIONAL FEATURES

- 360 degree turntable to enable safe and easy rotation of the top deck to facilitate loading of the stretcher into either the left hand or right hand side of the vehicle.
- Quick release locking pins.
- Hinged gates to prevent overshoot of locking pins.

### VERSATILE

The Cherub can be customised to suit a variety of vendor products and configurations, including Mansell Neocots, International Biomedical Voyager Transport Incubators, and Lifeport AeroSled Stretchers.

### DESIGNED WITH INDUSTRY

Extensive collaboration with industry to produce safe, reliable design protecting medical professionals and patients at all stages of transport.

### COMPLETELY REVERSIBLE

Installation of the Cherub system requires no permanent modification to the Stryker Power-PRO XT Stretcher and is completely reversible.
